

Build a school course plan that includes courses enrolled in, courses already completed and those that are a part of a plan for the future at [RUReadyND.com](http://RUReadyND.com). After creating a unique portfolio, go to Choices Explorer or Choices Planner and click on Course Plan Builder. This feature can be used to create a course/career plan based on a career cluster of interest or by selecting a basic plan (as shown below) and adding the courses in the grade and subject areas. Once completed, the course plan will be saved to the portfolio and can be revised as often as necessary as interests and plans change.
